How Hitler Could Have Won World War II Dec 29 2019 From an acclaimed military historian, a fascinating account of just how close the Allies were to losing World War II. Most of us rally around the glory of the Allies' victory over the Nazis in World War II. The story is often told of how the good fight was won by an astonishing array of manpower and stunning tactics. However, what is often overlooked is how the intersection between Adolf Hitler's influential personality and his military strategy was critical in causing Germany to lose the war. With an acute eye for detail and his use of clear prose, Bevin Alexander goes beyond counterfactual "What if?" history and explores for the first time just how close the Allies were to losing the war. Using beautifully detailed, newly designed maps, How Hitler Could Have

Won World War II exquisitely illustrates the important battles and how certain key movements and mistakes by Germany were crucial in determining the war's outcome. Alexander's harrowing study shows how only minor tactical changes in Hitler's military approach could have changed the world we live in today. Alexander probes deeply into the crucial intersection between Hitler's psyche and military strategy and how his paranoia fatally overwhelmed his acute political shrewdness to answer the most terrifying question: Just how close were the Nazis to victory?

**Final Answers** May 14 2021 Greg Dinallo, the heralded author of *Rockets' Red Glare* and *Purpose of Evasion*, has written his most chilling and disturbing

thriller yet: A novel of intrigue that explores the emotionally charged issue of Vietnam War MIAs. *Final Answers* is provocative, authentic, and powerful fiction. Among the 58,176 names etched on the long black wall of the Vietnam Memorial in Washington, DC, are names of those who never came home—of MIAs whose families are still waiting for final answers. During a business trip to Washington, a veteran, now a statistics expert, has an experience at the Memorial that will shatter his carefully constructed life with the impact of a Claymore mine. Touching the names carved in the wall, he finds one all too familiar: his own. A. Calvert Morgan understands cold, hard numbers. But how did his name get on the wall? Morgan's wife, Nancy, does some research for him that leads him to Kate Ackerman. Kate's husband had been listed as missing in action after being shot down in Laos twenty years earlier; during those years, she has joined the National League of Families and become a dedicated MIA activist. At first, Morgan believes that he is part of a bizarre military snafu—a data entry error made in the field. But when Kate guides him to the Army's Central Identification Lab in Hawaii, he begins to realize that his "death" was not an accident. In the war zone, another man took his name and serial number for his own—and then was killed. Morgan finds out that his impersonator was no ordinary GI. He was, in fact, a key player in a macabre conspiracy that reaches back to the poppy fields of Laos. Morgan has set off a deadly alarm; the drug lord is still operating and has targeted him for elimination. Coming after Morgan—a man more comfortable with a computer than a handgun—the hit man commits a murder so brutal that Morgan's life is turned into a raging fight for survival. From the San Francisco mortuary that received the bodies of American servicemen during the war to Southeast Asia in the '90s, Morgan is venturing into ever more violent territory. And he is not alone. Kate Ackerman has joined him on a trip to Thailand—hopeful that her husband is still alive, his fate possibly linked to those who have targeted Morgan for death. Amid Bangkok's steamy nightclubs and brackish, twisting canals, their quest pushes them into the jungle, across the Mekong River into Laos, where they move toward a brutal final answer to the mystery of Vietnam MIAs . . . Electrifying and filled with suspense, *Final Answers* confirms Greg Dinallo's reputation as a novelist who poses daring questions, takes extraordinary risks, and delivers searing excitement from first page to last.

**War of the World Views** Jul 28 2022 What do aliens, dinosaurs, and gay marriage have in common? They are all part of the culture war - a war between two worldviews. One view is based on a biblical understanding of history, the other on pure naturalism. Our educational institutions and the media are on the frontlines of evolutionizing our culture. From Biology 101 to World History, from The Learning Channel to Sponge Bob, subtle and not-so-subtle evolutionary messages bombard us. We witness the battles and skirmishes of this war in our schools, our courts and our homes. All around us are casualties of the warfare - Christians taken captive by an evolutionary philosophy. The idea of the big bang and millions of years has duped many Christians and its effects include a deficient gospel and subjective morality. How are we to respond when we hear of the latest "argument" for evolution? How can we prepare our children to face the evolutionary indoctrination of our public schools and universities? What are we to make of "Christian" organizations who teach the big bang and millions

of years? How can we build a truly biblical worldview? In this powerful book, you will find ammunition for the war: answers to some of the most common arguments for evolution, analyses of Christian compromise positions and a call for return to the true biblical authority.

**Information at War** Nov 27 2019 A war's outcome is determined by more than bullets and bombs. In our digital age, the proliferation of new media venues has magnified the importance of information - whether its content is true or purposely false - in battling an enemy and defending the public. In this

book, Philip Seib, one of the world's leading experts on media and war, offers a probing analysis of the role of information in warfare from the Second World War to the present day and beyond. He focuses on some of the thorniest issues on the contemporary agenda: When untruthful and inflammatory information poisons a nation's political processes and weakens its social fabric, what kind of response is appropriate? How can media literacy help citizens defend themselves against information warfare? Should militaries place greater emphasis on crippling their adversaries with information rather than kinetic force? Well-written and wide-ranging, *Information at War* suggests answers to key questions with which governments, journalists, and the public must grapple during the years ahead. *Information at war* affects us all, and this book shows us how.

**What Every Person Should Know About War** Jun 22 2019 Acclaimed New York Times journalist and author Chris Hedges offers a critical -- and fascinating -- lesson in the dangerous realities of our age: a stark look at the effects of war on combatants. Utterly lacking in rhetoric or dogma, this manual relies instead on bare fact, frank description, and a spare question-and-answer format. Hedges allows U.S. military documentation of the brutalizing physical and psychological consequences of combat to speak for itself. Hedges poses dozens of questions that young soldiers might ask about combat, and then answers them by quoting from medical and psychological studies. • What are my chances of being wounded or killed if we go to war? • What does it feel like to get shot? • What do artillery shells do to you? • What is the most painful way to get wounded? • Will I be afraid? • What could happen to me in a nuclear attack? • What does it feel like to kill someone? • Can I withstand torture? • What are the long-term consequences of combat stress? • What will happen to my body after I die? This profound and devastating portrayal of the horrors to which we subject our armed forces stands as a ringing indictment of the glorification of war and the concealment of its barbarity.

*When God Says War Is Right* Aug 17 2021 Across the centuries, how have Christians who follow the Prince of Peace responded to the recurring reality of war? And what guidance do they offer for believers today-in the midst of global conflict? In *When God Says War Is Right*, Dr. Darrell Cole offers thorough and highly readable answers. His expert examination focuses on these topics: • Relating the character of God with the use of force • Relating the character of God with the use of force • Determining when and how Christians ought to fight • Understanding why Christian virtues are vital when using force • Using nuclear weapons for deterrence • Learning lessons from World War II, Vietnam, and the 1991 Gulf War • Responding to today's war against terrorism Dr. Cole focuses on Romans 13, where Paul commands us to "do what is right" (or "good" or "noble") in regard to our governing authorities, who have legitimate war-making authority. In the case of war, what is "right" for the Christian? This book answers that essential question. In today's war-stricken world, Dr. Cole provides timely, trustworthy, and vitally needed guidance for Christians.

**War, Peace, and Christianity** Jun 26 2022 With issues of war and peace at

**Brokenburn** Mar 31 2020 This journal records the Civil War experiences of a sensitive, well-educated, young southern woman. Kate Stone was twenty when the war began, living with her widowed mother, five brothers, and younger sister at Brokenburn, their plantation home in northeastern Louisiana. When Grant moved against Vicksburg, the family fled before the invading armies, eventually found refuge in Texas, and finally returned to a devastated home. Kate began her journal in May, 1861, and made regular entries up to November, 1865. She included briefer sketches in 1867 and 1868. In chronicling her everyday activities, Kate reveals much about a way of life that is no more: books read, plantation management and crops, maintaining slaves in the antebellum period, the attitude and conduct of slaves during the war, the fate of refugees, and civilian morale. Without pretense and with almost photographic clarity, she portrays the South during its darkest hours.

Global Civil Society Jun 02 2020 The terms 'global' and 'civil society' have both become part of the contemporary political lexicon. In this important new book, Mary Kaldor argues that this is no coincidence and that the reinvention of civil society has to be understood in the context of globalization. The concept of civil society is no longer confined to the borders of the territorial state. Whether one considers dissidents in repressive regimes, landless labourers in Central America, campaigners against land mines or global debt, or even religious fundamentalists, it is now possible for them to link up with other like-minded groups in different parts of the world and to address demands not just to national governments but to global institutions as well. This has opened up new opportunities for human emancipation, and, in particular, for going beyond war as a way of managing global affairs. But it also entails new risks and insecurities. This is a book about a political idea – an idea that came out of the 1989 revolutions. It is an idea that expresses a real phenomenon, even if the boundaries and shape of the phenomenon are contested and subject to constant redefinition. The study of past debates as well as the actions and arguments of the present is a way of directly influencing the phenomenon, and of contributing to a changing reality, if possible for the better. The task is all the more urgent in the aftermath of September 11. Global Civil Society will be read by students of politics, international relations and sociology, as well as activists, policy-makers, journalists and all those engaged in global public debates.
