*Uni the Unicorn in the Real World* Jul 20 2021 Uni the Unicorn, the only unicorn who believes kids are real, slides down a double rainbow to visit friends on earth. Uni the Unicorn visits her best friend in the real world. Now everyone will know that unicorns exist, and that Uni is real after all. But when the little girl introduces Uni to her family and friends, they can't see the unicorn. Then, with the power of believing and Uni's magic horn, one little boy begins to see something. And then all the kids begin to believe in magic. And as the real world grows brighter and brighter, all kinds of other magical creatures appear, ending the book with the most dazzling array of imaginary creatures. Paris Rosenthal, the daughter of the late Amy Krouse Rosenthal, wrote this as a tribute to her mom.

Grotesque Jul 28 2019 Life at the prestigious Q High School for Girls in Tokyo exists on a precise social axis: a world of insiders and outsiders, of haves and have-nots. Beautiful Yuriko and her unpopular, unnamed sister exist in different spheres; the hopelessly awkward Kazue Sato floats around among them, trying to fit in. Years later, Yuriko and Kazue are dead — both have become prostitutes and both have been brutally murdered. Natsuo Kirino, celebrated author of *Out*, seamlessly weaves together the stories of these women's struggles within the conventions and restrictions of Japanese society. At once a psychological investigation of the pressures facing Japanese women and a classic work of noir fiction, *Grotesque* is a brilliantly twisted novel of ambition, desire, beauty, cruelty, and identity by one of our most electrifying writers.

**Here in the Real World** Sep 02 2022 From the author of the highly acclaimed, New York Times bestselling novel *Pax* comes a gorgeous and moving middle grade novel that is an ode to introverts, dreamers, and misfits everywhere. Ware can't wait to spend summer "off in his own world"—dreaming of knights in the Middle Ages and generally being left alone. But then his parents sign him up for dreaded Rec camp, where he must endure Meaningful Social Interaction and whatever activities so-called "normal" kids do. On his first day Ware meets Jolene, a tough, secretive girl planting a garden in the rubble of an abandoned church next to the camp. Soon he starts skipping Rec, creating a castle-like space of his own in the church lot. Jolene scoffs, calling him a dreamer—he doesn't live in the "real world" like she does. As different as Ware and Jolene are, though, they have one thing in common: for them, the lot is a refuge. But when their sanctuary is threatened, Ware looks to the knights' Code of Chivalry: Thou shalt do battle against unfairness wherever faced with it. Thou shalt be always the champion of the Right and Good—and vows to save the lot. But what does a hero look like in real life? And what can two misfit kids do?

**Real World Algebra** Dec 13 2020 Algebra is often taught in an abstract manner with little or no emphasis on what algebra is or how it can be used to solve real problems. Just as English can be translated into other languages, word problems can be "translated" into the math language of algebra and easily solved. *Real World Algebra* explains this process in an easy to understand format using cartoons and drawings. This makes self-learning easy for both the student and any teacher who never did quite understand algebra. Solutions included. Includes chapters on the language of algebra, geometry and algebra, proportions and algebra, physics, levers, the Pythagorean Theorem, percents and algebra, simultaneous equations, and algebra and money.--publisher's website.

**Encountering Jesus in Real World Gospels** Aug 28 2019 Encountering Jesus in the Real World of the Gospels Cyndi Parker Encountering Jesus in the Real World of the Gospels draws readers into a deeper understanding of ancient Israel and first-century Judaism--the clothing, setting, political climate, and more--all to better understand Jesus' ministry. Instead of reading the Gospels through twenty-first-century eyes, author Cyndi Parker introduces readers to the larger context with the weight of the Old Testament behind them. This is an approachable and conversational book that introduces the reader to the complex human world of Jesus. Have you ever wondered if it is important that Jesus grew up in Nazareth but moved his public ministry to Capernaum, even though Jerusalem was the capital of Jewish thought? Does it seem strange to you that Pharisees, Sadducees, and Essenes held significantly divergent religious views, even though they were all Jewish? In this book, Cyndi Parker guides us through the intriguing drama of history that created the context of first-century Judaism. She extends an invitation to readers to take a new look at the long drama of God's interactions with humanity that reach a climax in the life of Jesus. Encountering Jesus in the Real World of the Gospels focuses on the complexities of the political, social, literary, and religious context of the Gospels. The purpose is to advance readers' understanding of the Gospels and help them encounter Jesus, the disciples, and crowds as real people in a real place at a time vastly different from today. Come explore the land of ancient Israel with its dramatic history, culture, and religion. Includes many images, maps, photos, and drawings throughout! About the Author Cyndi Parker (PhD, University of Gloucestershire) teaches in seminaries, universities, and churches around the world. Cyndi lived in Jerusalem for five years, has led dozens of trips to Israel, and continues to develop innovative, educational trips that inspire students of all ages through experiential education.

**The Real World of College** Jun 30 2022 Why higher education in the United States has lost its way, and how universities and colleges can focus sharply on their core mission. For *The Real World of College*, Wendy Fischman and Howard Gardner analyzed in-depth interviews with more than 2,000 students, alumni, faculty, administrators, parents, trustees, and others, which were conducted at ten institutions ranging from highly selective liberal arts colleges to less-selective state schools. What they found challenged characterizations in the media: students are not preoccupied by political correctness, free speech, or even the cost of college. They are most concerned about their GPA and their resumes; they see jobs and earning potential as more important than learning. Many say they face mental health challenges, fear that they don't belong, and feel a deep sense of alienation. Given this daily reality for students, has higher education lost its way? Fischman and Gardner contend that US universities and colleges must focus sharply on their core educational mission. Fischman and Gardner, both recognized authorities on education and learning, argue that higher education in the United States has lost sight of its principal reason for existing: not vocational training, not the provision of campus amenities, but to increase what Fischman and Gardner call "higher education capital"—to help students think well and broadly, express themselves clearly, explore new areas, and be open to possible transformations. Fischman and Gardner offer cogent recommendations for how every college can become a community of learners who are open to change as thinkers, citizens, and human beings.

*I Want My MTV* Apr 04 2020 Remember When All You Wanted Was Your MTV? The perfect gift for the music fan or child of the eighties in your life. Named One of the Best Books of 2011 by NPR – Spin - USA Today – CNBC - Pitchfork - The Onion - The Atlantic - The Huffington Post – VEVO - The Boston Globe - The San Francisco Chronicle Remember the first time you saw Michael Jackson dance with zombies in "Thriller"? Diamond Dave karate kick with Van Halen in "Jump"? Tawny Kitaen turning cartwheels on a Jaguar to Whitesnake's "Here I Go Again"? The Beastie Boys spray beer in "(You Gotta) Fight for Your Right (To Party)"? Axl Rose step off the bus in "Welcome to the Jungle"? It was a pretty radical idea—a channel for teenagers, showing nothing but music videos. It was such a radical idea that almost no one thought it would actually succeed, much less become a force in the worlds of music, television, film, fashion, sports, and even politics. But it did work. MTV became more than anyone had ever imagined. *I Want My MTV* tells the story of the first decade of MTV, the golden era when MTV's programming was all videos, all the time, and kids watched religiously to see their favorite bands, learn about new music, and have something to talk about at parties. From its start in 1981 with a small cache of videos by mostly unknown British new wave acts to the launch of the reality-television craze with *The Real World* in 1992, MTV grew into a tastemaker, a career maker, and a mammoth business. Featuring interviews with nearly four hundred artists, directors, VJs, and television and music executives, *I Want My MTV* is a testament to the channel that changed popular culture forever.

**Craft in the Real World** Sep 21 2021 "An insightful guide for readers, writers, and instructors from all walks of life," this manifesto and practical guide challenges current models of craft and the writing workshop by showing how they fail marginalized writers, and how cultural expectations inform storytelling (Kirkus Reviews). The traditional writing workshop was established with white male writers in mind; what we call craft is informed by their cultural values. In this bold and original examination of elements of writing—including plot, character, conflict, structure, and believability—and aspects of workshop—including the silenced writer and the imagined reader--

Matthew Salesses asks questions to invigorate these familiar concepts. He upends Western notions of how a story must progress. How can we rethink craft, and the teaching of it, to better reach writers with diverse backgrounds? How can we invite diverse storytelling traditions into literary spaces? Drawing from examples including *One Thousand and One Nights*, *Curious George*, Ursula K. Le Guin's *A Wizard of Earthsea*, and the Asian American classic *No-No Boy*, Salesses asks us to reimagine craft and the workshop. In the pages of exercises included here, teachers will find suggestions for building syllabi, grading, and introducing new methods to the classroom; students will find revision and editing guidance, as well as a new lens for reading their work. Salesses shows that we need to interrogate the lack of diversity at the core of published fiction: how we teach and write it. After all, as he reminds us, "When we write fiction, we write the world."
