Getting the books **Chapter 27 The Cold War At Home Abroad** now is not type of inspiring means. You could not lonesome going similar to books addition or library or borrowing from your connections to gate them. This is an unquestionably simple means to specifically get lead by on-line. This online publication Chapter 27 The Cold War At Home Abroad can be one of the options to accompany you subsequently having other time.

It will not waste your time. assume me, the e-book will no question sky you other issue to read. Just invest tiny time to contact this on-line declaration **Chapter 27 The Cold War At Home Abroad** as skillfully as review them wherever you are now.

The Cold War Apr 29 2022 The definitive history of the Cold War and its impact around the world We tend to think of the Cold War as a bounded conflict: a clash of two superpowers, the United States and the Soviet Union, born out of the ashes of World War II and coming to a dramatic end with the collapse of the Soviet Union. But in this major new work, Bancroft Prize-winning scholar Odd Arne Westad argues that the Cold War must be understood as a global ideological confrontation, with early roots in the Industrial Revolution and ongoing repercussions around the world. In *The Cold War*, Westad offers a new perspective on a century when great power rivalry and ideological battle transformed every corner of our globe. From Soweto to Hollywood, Hanoi, and Hamburg, young men and women felt they were fighting for the future of the world. The Cold War may have begun on the perimeters of Europe, but it had its deepest reverberations in Asia, Africa, and the Middle East, where nearly every community had to choose sides. And these choices continue to define economies and regimes across the world. Today, many regions are plagued with environmental threats, social divides, and ethnic conflicts that stem from this era. Its ideologies influence China, Russia, and the United States; Iraq and Afghanistan have been destroyed by the faith in purely military solutions that emerged from the Cold War. Stunning in its breadth and revelatory in its perspective, this book expands our understanding of the Cold War both geographically and chronologically, and offers an engaging new history of how today's world was created.

The Cold War Mar 05 2020 Even fifteen years after the end of the Cold War, it is still hard to grasp that we no longer live under its immense specter. For nearly half a century, from the end of World War II to the early 1990s, all world events hung in the balance of a simmering dispute between two of the greatest military powers in history. Hundreds of millions of people held their collective breath as the United States and the Soviet Union, two national ideological entities, waged proxy wars to determine spheres of influence—and millions of others perished in places like Korea, Vietnam, and Angola, where this cold war flared hot. Such a consideration of the Cold War—as a military event with sociopolitical and economic overtones—is the crux of this stellar collection of twenty-six essays compiled and edited by Robert Cowley, the longtime editor of *MHQ: The Quarterly Journal of Military History*. Befitting such a complex and far-ranging period, the volume's contributing writers cover myriad angles. John Prados, in "The War Scare of 1983," shows just how close we were to escalating a war of words into a nuclear holocaust. Victor Davis Hanson offers "The Right Man," his pungent reassessment of the bellicose air-power zealot Curtis LeMay as a man whose words were judged more critically than his actions. The secret war also gets its due in George Feiffer's "The Berlin Tunnel," which details the charismatic C.I.A. operative "Big Bill" Harvey's effort to tunnel under East Berlin and tap Soviet phone lines—and the Soviets' equally audacious reaction to the plan; while "The Truth About Overflights," by R. Cargill Hall, sheds light on some of the Cold War's best-kept secrets. The often overlooked human cost of fighting the Cold War finds a clear voice in "MIA" by Marilyn Elkins, the widow of a Navy airman, who details the struggle to learn the truth about her husband, Lt. Frank C. Elkins, whose A-4 Skyhawk disappeared over Vietnam in 1966. In addition there are profiles of the war's "front lines"—Dien Bien Phu, the Cuban Missile Crisis, the Bay of Pigs—as well as of prominent military and civil leaders from both sides, including Harry S. Truman, Nikita Khrushchev, Dean Acheson, Gen. Douglas MacArthur, Richard M. Nixon, Gen. Vo Nguyen Giap, and others. Encompassing so many perspectives and events, *The Cold War* succeeds at an impossible task: illuminating and explaining the history of an undeclared shadow war that threatened the very existence of humankind.

The Oxford Handbook of the Cold War May 19 2021 *The Oxford Handbook of the Cold War* offers a broad reassessment of the period war based on new conceptual frameworks developed in the field of international history. Nearing the 25th anniversary of its end, the cold war now emerges as a distinct period in twentieth-century history, yet one which should be evaluated within the broader context of global political, economic, social, and cultural developments. The editors have brought together leading scholars in cold war history to offer a new assessment of the state of the field and identify fundamental questions for future research. The individual chapters in this volume evaluate both the extent and the limits of the cold war's reach in world history. They call into question orthodox ways of ordering the chronology of the cold war and also present new insights into the global dimension of the conflict. Even though each essay offers a unique perspective, together they show the interconnectedness between cold war and national and transnational developments, including long-standing conflicts that preceded the cold war and persisted after its end, or global transformations in areas such as human rights or economic and cultural globalization. Because of its broad mandate, the volume is structured not along conventional chronological lines, but thematically, offering essays on conceptual frameworks, regional perspectives, cold war instruments and cold war challenges. The result is a rich and diverse accounting of the ways in which the cold war should be positioned within the broader context of world history.

From the Cold War to a New Era Jul 21 2021 First published in 1991 as *THE TURN*, this is the gripping narrative of the passage of the United States and the Soviet Union from the Cold War to a new era. Now this widely praised book is available in a new, updated paperback edition that brings the narrative up to the dramatic collapse of the Soviet Union. Replete with historical personalities, as riveting as a spy thriller, this is an enthralling record of history in the making. 34 photos.

The Cold War as History Apr 17 2021 Den kolde krig er betegnelsen på den sikkerhedspolitiske tilstand imellem Sovjetunionen samt den Nord Amerikanske alliance. Den kolde krig startede i 1945 og var karakteriseret af eksistensen af atomvåben på amerikansk side, siden på sovjetisk side. Perioden var også kendetegnet ved, at der ikke var en tredje magt, som havde en tilstrækkelig militær styrke til at balancere de to blokke. Berlin-krisen i 1948 samt Cuba-krisen i 1962 er behandlet.

Encyclopedia of the Cold War Jul 01 2022 Between 1945 and 1991, tension between the USA, its allies, and a group of nations led by the USSR, dominated world politics. This period was called the Cold War – a conflict that stopped short to a full-blown war. Benefiting from the recent research of newly open archives, the *Encyclopedia of the Cold War* discusses how this state of perpetual tensions arose, developed, and was resolved. This work examines the military, economic, diplomatic, and political evolution of the conflict as well as its impact on the different regions and cultures of the world. Using a unique geopolitical approach that will present Russian perspectives and others, the work covers all aspects of the Cold War, from communism to nuclear escalation and from UFOs to red diaper babies, highlighting its vast-ranging and lasting impact on international relations as well as on daily life. Although the work will focus on the 1945–1991 period, it will explore the roots of the conflict, starting with the formation of the Soviet state, and its legacy to the present day.

The Press, the Rosenbergs, and the Cold War Jun 27 2019 A concisely written documentary history of the Rosenberg case that interprets the news media's unexplored role in reporting the case.

Mao's China and the Cold War Aug 22 2021 This comprehensive study of China's Cold War experience reveals the crucial role Beijing played in shaping the orientation of the global Cold War and the confrontation between the United States and the Soviet Union. The success of China's Communist revolution

Rethinking Cold War Culture Aug 29 2019 This anthology of essays questions many widespread assumptions about the culture of postwar America. Illuminating the origins and development of the many threads that constituted American culture during the Cold War, the contributors challenge the existence of a monolithic culture during the 1950s and thereafter. They demonstrate instead that there was more to American society than conformity, political conservatism, consumerism, and middle-class values. By examining popular culture, politics, economics, gender relations, and civil rights, the contributors contend that, while there was little fundamentally new about American culture in the Cold War era, the Cold War shaped and distorted virtually every aspect of American life. Interacting with long-term historical trends related to demographics, technological change, and economic cycles, four new elements dramatically influenced American politics and culture: the threat of nuclear annihilation, the use of surrogate and covert warfare, the intensification of anticommunist ideology, and the rise of a powerful military-industrial complex. This provocative dialogue by leading historians promises to reshape readers' understanding of America during the Cold War, revealing a complex interplay of historical norms and political influences.

Cold War Civil Rights Oct 12 2020 Argues that the Cold War helped speed and facilitate such key reforms as desegregation due to international pressure and the obstacle American racism created in attaining Cold War goals.

The Cold War Nov 12 2020 The Cold War is one of the furthest-reaching and longest-lasting conflicts in modern history. It spanned the globe - from Greece to China, Hungary to Cuba - and lasted for almost half a century. It has shaped political relations to this day, drawing new physical and ideological boundaries between East and West. In this meticulously researched account, Bridget Kendall explores the Cold War through the eyes of those who experienced it first-hand. Alongside in-depth analysis that explains the historical and political context, the book draws on exclusive interviews with individuals who lived through the conflict's key events, offering a variety of perspectives that reveal how the Cold War was experienced by ordinary people. From pilots making food drops during the Berlin Blockade and Japanese fishermen affected by H-bomb testing to families fleeing the Korean War and children whose parents were victims of McCarthy's Red Scare, *The Cold War* covers the full geographical and historical reach of the conflict. Accompanying a landmark BBC Radio 4 series, *The Cold War: Stories from the Big Freeze* is essential reading for anyone seeking to understand how the tensions of the last century have shaped the modern world, and what it was like to live through them.

The Cambridge History of the Cold War Jul 29 2019 This volume examines the origins and early years of the Cold War in the first comprehensive historical reexamination of the period. A team of leading scholars shows how the conflict evolved from the geopolitical, ideological, economic and sociopolitical environments of the two world wars and interwar period.

The Twilight Struggle Aug 10 2020 A leading historian's guide to great-power competition, as told through America's successes and failures in the Cold War "If you want to know how America can win today's rivalries with Russia and China, read this book about how it triumphed in another twilight struggle: the Cold War." — Stephen J. Hadley, national security adviser to President George W. Bush The United States is entering an era of great-power competition with China and Russia. Such global struggles happen in a geopolitical twilight, between the

sunshine of peace and the darkness of war. In this innovative and illuminating book, Hal Brands, a leading historian and former Pentagon adviser, argues that America should look to the history of the Cold War for lessons in how to succeed in great-power rivalry today. Although the threat posed by authoritarian powers is growing, America's muscle memory for dealing with dangerous foes has atrophied in the thirty years since the Cold War ended. In long-term competitions where the diplomatic jockeying is intense and the threat of violence is omnipresent, the United States will need all the historical insight it can get. Exploring how America won a previous twilight struggle is the starting point for determining how America can successfully prosecute another high-stakes rivalry today.

The Cold War Oct 04 2022 Bradley Lightbody here examines the complex arguments which divided East and West following the Second World War, and analyzes its eight major phases from the emergence of the Cold War through the late 1980s.

Reviewing the Cold War Sep 03 2022 This volume takes stock of where new materials from China, the former Soviet Union and Europe have taken us in our understanding of what the Cold War was about and how we should study it.

Turning Points in Ending the Cold War Jul 09 2020 Twenty years ago, as the United States and the Soviet Union were sliding into yet another round of dangerous confrontation, no one could have imagined that only a decade later the cold war would be over and that Russia and the West would embark on an unprecedented course of economic, political, and military cooperation. How did it happen? The essays in this collection offer illuminating insights into the key players--Ronald Reagan, Mikhail Gorbachev, Boris Yeltsin, and others--and the monumental events that led to the collapse of communism. The expert contributors examine the end of detente and the beginning of the new phase of the cold war in the early 1980s, when U.S.-Soviet relations seemed to hit a new low. They detail Reagan's radical new strategies aimed at changing Soviet behavior. And they analyze the essence and origins of Mikhail Gorbachev's "new political thinking"--his realization that the cold war was not in Russia's interest and could not end unless his country changed itself-and its critical role in the ultimate transformation of the Soviet Union. In addition the authors describe the peaceful democratic revolutions in Poland and Hungary, the events that brought about the reunification of Germany, the role of events in Third World countries, the critical contributions of Yeltsin, and more.

Southeast Asia and the Cold War May 07 2020 The origins and the key defining moments of the Cold War in Southeast Asia have been widely debated. This book focuses on an area that has received less attention, the impact and legacy of the Cold War on the various countries in the region, as well as on the region itself. The book contributes to the historiography of the Cold War in Southeast Asia by examining not only how the conflict shaped the milieu in which national and regional change unfolded but also how the context influenced the course and tenor of the Cold War in the region. It goes on to look at the usefulness or limitations of using the Cold War as an interpretative framework for understanding change in Southeast Asia. Chapters discuss how the Cold War had a varied but notable impact on the countries in Southeast Asia, not only on the mainland countries belonging to what the British Foreign Office called the "upper arc", but also on those situated on its maritime "lower arc". The book is an important contribution to the fields of Asian Studies and International Relations.

The Culture of the Cold War May 31 2022 The author examines the culture of the United States in the post- World War II era with its air raid drills, spy trials, anti-Communist activity, and TV quiz show scandals.

The Columbia Guide to the Cold War Aug 02 2022 Details the key events and issues in the history of the Cold War, and includes a dictionary of terms, institutions, and people; a condensed chronology; and an annotated resource section.

Running Time Sep 30 2019

East Plays West Feb 25 2022 This is a collection of essays on the symbolic role of sport in the delicate interplay of the superpowers during the Cold War, showing how sport and politics became inextricably intertwined.

The Cold War Oct 31 2019 This collection brings together the most influential and commonly-studied articles on the Cold War. Together with an introduction and concise headnotes, this book provides students with easy access to seminal work and an analytical framework with which to approach their studies.

Statecraft and Security Oct 24 2021 In this book a group of influential and distinguished scholars analyze some of the key questions in contemporary international relations. The book is in three parts. In the first, the lessons and legacies of Cold War are examined, including debates about its rise and fall, and the implications of the superpower nuclear confrontation. Part II asks questions about powers and politics in the post-Cold War world: the USA's potential as a world leader, Russia's troubled future, Japan's potential power, the China syndrome, and Africa's problems. The final part looks further into the future, discussing international organisation, life politics, and the potentialities for human society under the conditions of globalisation. The book shows how different countries and different groups of countries are confronting urgent issues of statecraft in a period of radical global transformation.

A Brief History of the Cold War Sep 22 2021 The Cold War was a crucial conflict in American history. At stake was whether the world would be dominated by the forces of totalitarianism led by the Soviet Union, or inspired by the principles of economic and political freedom embodied in the United States. The Cold War established America as the leader of the free world and a global superpower. It shaped U.S. military strategy, economic policy, and domestic politics for nearly 50 years. In *A Brief History of the Cold War*, distinguished scholars Lee Edwards and Elizabeth Edwards Spalding recount the pivotal events of this protracted struggle and explain the strategies that eventually led to victory for freedom. They analyze the development and implementation of containment, detente, and finally President Reagan's philosophy: "they lose, we win." The Cold War teaches important lessons about statecraft and America's indispensable role in the world.

The Origins of the Cold War, 1941-1949 Dec 26 2021 The Cold War is one of the most important and widely studied areas of history. Martin McCauley's best-selling Seminar Study unravels the complex issues which gave rise to the Cold War. Revised, updated and expanded, this new edition incorporates the most recent scholarship, theories and newly-released information to provide students with an invaluable introduction to the subject.

The Cold War Nov 05 2022 "Outstanding . . . The most accessible distillation of that conflict yet written." —The Boston Globe "Energetically written and lucid, it makes an ideal introduction to the subject." —The New York Times The "dean of Cold War historians" (The New York Times) now presents the definitive account of the global confrontation that dominated the last half of the twentieth century. Drawing on newly opened archives and the reminiscences of the major players, John Lewis Gaddis explains not just what happened but why—from the months in 1945 when the U.S. and the U.S.S.R. went from alliance to antagonism to the barely averted holocaust of the Cuban Missile Crisis to the maneuvers of Nixon and Mao, Reagan and Gorbachev. Brilliant, accessible, almost Shakespearean in its drama, *The Cold War* stands as a triumphant summation of the era that, more than any other, shaped our own. Gaddis is also the author of *On Grand Strategy*.

The Fifty-year War Sep 10 2020 The first comprehensive history of the Cold War retraces this protracted "World War III" as it was fought in sterile strategic planning rooms and on the battlefields of Third World proxy states, from the Spanish Civil War to the fall of the Soviet Union in 1991.

How the Cold War Began Jun 07 2020 Draws on newly declassified intelligence files to examine one of the twentieth century's most influential spy cases as well as its role in generating the Cold War, discussing the defection of a cipher clerk who revealed a Soviet espionage network in North America less than a month after the atomic bombing of Japan.

The United States and the Origins of the Cold War, 1941-1947 Nov 24 2021 John Lewis Gaddis' acclaimed history of U.S. policy toward the Soviet Union during and immediately after World War II is now available with a new preface by the author. This book moves beyond the focus on economic considerations that was central to the work of New Left historians, examining the many other forces -- domestic politics, bureaucratic inertia, quirks of personality, and perceptions of Soviet intentions -- that influenced key decision makers in Washington, and in doing so seeks to analyze these determinants of policy in terms of their full diversity and relative significance.

Reagan, Bush, Gorbachev Mar 29 2022 This book examines the end of the Cold War and the decline of ardent anticommunist ideologies in the United States. It chronicles the evolution of the political relationship between Reagan and Mikhail Gorbachev and that relationship's role in ending the Cold War.

The Cold War on the Periphery Jun 19 2021 And what combination of economic, political, and ideological variables best explain the motives that led the United States to seek friends and allies in virtually every corner of the planet?

Fearing the Worst Dec 14 2020 After World War II, the escalating tensions of the Cold War shaped the international system. Fearing the Worst explains how the Korean War fundamentally changed postwar competition between the United States and the Soviet Union into a militarized confrontation that would last decades. Samuel F. Wells Jr. examines how military and political events interacted to escalate the conflict. Decisions made by the Truman administration in the first six months of the Korean War drove both superpowers to intensify their defense buildup. American leaders feared the worst-case scenario—that Stalin was prepared to start World War III—and raced to build up strategic arms, resulting in a struggle they did not seek out or intend. Their decisions stemmed from incomplete interpretations of Soviet and Chinese goals, especially the belief that China was a Kremlin puppet. Yet Stalin, Mao, and Kim Il-sung all had their own agendas, about which the United States lacked reliable intelligence. Drawing on newly available documents and memoirs—including previously restricted archives in Russia, China, and North Korea—Wells analyzes the key decision points that changed the course of the war. He also provides vivid profiles of the central actors as well as important but lesser known figures. Bringing together studies of military policy and diplomacy with the roles of technology, intelligence, and domestic politics in each of the principal nations, *Fearing the Worst* offers a new account of the Korean War and its lasting legacy.

Homeward Bound Mar 17 2021 A revised edition of the classic, myth-shattering exploration of American family life during the Cold War. When *Homeward Bound* first appeared in 1988, it forever changed how we understand Cold War America. Elaine Tyler May demonstrated that the Atomic Age and the Cold War shaped American life not just in national politics, but at every level of society, from the boardroom to the bedroom. Her notion of "domestic containment" is now the standard interpretation of the era, and *Homeward Bound* has become a classic. This new edition includes an updated introduction and a new epilogue examining the legacy of Cold War obsessions with personal and family security in the present day.

The Cold War Jan 27 2022 In today's worlds of drones, military strikes, and weapons of mass destruction, it's difficult to imagine a nonviolent war of constant hostility between world super powers. Readers will be intrigued by this conflict known as the Cold War. They will learn that it was a geopolitical, ideological, and economic struggle between two world superpowers, the USA and the USSR, starting in 1947 and ending in 1991.

Freedom's Laboratory Feb 02 2020 Closing in the present day with a discussion of the 2017 March for Science and the prospects for science and science diplomacy in the Trump era, the book demonstrates the continued hold of Cold War thinking on ideas about science and politics in the United States.

Selling the American Way Jan 03 2020 Selling the American Way documents how U.S. officials defined and defended the "American Way of Life" in a quest to promote democratic capitalism and discredit communism, but faced great difficulties in reconciling their symbolic America with the complex political, economic, and strategic realities of the Cold War.

Stalin and the Cold War in Europe Jan 15 2021 This intriguing book, based on recently accessible Soviet primary sources, is the first to explain the emergence of the Cold War and its development in Stalin's lifetime from the perspective of Soviet policy-making. It pays particular attention to the often-neglected "societal" dimension of Soviet foreign policy as a crucial element of the genesis and development of the Cold War. Gerhard Wettig provides readers with new insights into Stalin's willingness to initiate crisis with the West while still avoiding military conflict.

The Cold War Feb 13 2021 Surveys the military and diplomatic history of the long Cold War, from 1917 to the present.

American-Soviet Trade in the Cold War Apr 05 2020 American-Soviet Trade in the Cold War

Origins of the Cold War Dec 02 2019 The Cold War dominated the world political arena for forty-five years. Focusing on the international system and on events in all parts of the globe,

Melvyn P. Leffler and David S. Painter have brought together a truly international collection of articles that provide a fresh and comprehensive analysis of the origins of the Cold War. Moving beyond earlier controversies, this edited collection focuses on the interaction between geopolitics and threat perception, technology and strategy, ideology and social reconstruction, national economic reform and patterns of international trade, and decolonization and national liberation. The editors also consider how and why the Cold War spread from Europe to Asia, Africa, the Middle East and Latin America and how groups, classes and elites used the Cold War to further their own interests. This second edition includes the newest research from the Communist side of the Cold War and the most recent debates on culture, race and the role of intelligence analysis. Also included is a completely new section dealing with the Cold War crises in Iran, Turkey and Greece and a guide to further reading.
