pronouncement Prentice Hall Modern American History Edition as without difficulty as
review them wherever you are now.

Little Britches Jun 27 2019 Ralph Moody was eight years old in 1906 when his family
moved from New Hampshire to a Colorado ranch. Through his eyes we experience the
pleasures and perils of ranching there early in the twentieth century. Auctions and
roundups, family picnics, irrigation wars, tornadoes and wind storms give authentic
color to Little Britches. So do adventures, wonderfully told, that equip Ralph to
take his father's place when it becomes necessary. Little Britches was the literary
debut of Ralph Moody, who wrote about the adventures of his family in eight glorious
books, all available as Bison Books.

Encyclopedia of Right-Wing Extremism In Modern American History Aug 02 2022 This
encyclopedia covers American right-wing extremist groups and extremism from the
1930s to the present day, including neo-Nazis, the Ku Klux Klan, and various anti-
government organizations. • Chronological presentation of the specific groups and
organizations provides historical insight into the development of right-wing
extremism • Provides an up-to-date bibliography for further reading • Thorough cross-
referencing of sources

The Rise and Fall of Modern American Conservatism Apr 29 2022 The story of modern
conservatism through the lives of six leading figures The Rise and Fall of Modern
American Conservatism tells the gripping story of perhaps the most significant
political force of our time through the lives and careers of six leading figures at

the heart of the movement. David Farber traces the history of modern conservatism from its revolt against New Deal liberalism, to its breathtaking resurgence under Ronald Reagan, to its spectacular defeat with the election of Barack Obama. Farber paints vivid portraits of Robert Taft, William F. Buckley Jr., Barry Goldwater, Phyllis Schlafly, Ronald Reagan, and George W. Bush. He shows how these outspoken, charismatic, and frequently controversial conservative leaders were united by a shared insistence on the primacy of social order, national security, and economic liberty. Farber demonstrates how they built a versatile movement capable of gaining and holding power, from Taft's opposition to the New Deal to Buckley's founding of the National Review as the intellectual standard-bearer of modern conservatism; from Goldwater's crusade against leftist politics and his failed 1964 bid for the presidency to Schlafly's rejection of feminism in favor of traditional gender roles and family values; and from Reagan's city upon a hill to conservatism's downfall with Bush's ambitious presidency. *The Rise and Fall of Modern American Conservatism* provides rare insight into how conservatives captured the American political imagination by claiming moral superiority, downplaying economic inequality, relishing bellicosity, and embracing nationalism. This concise and accessible history reveals how these conservative leaders discovered a winning formula that enabled them to forge a powerful and formidable political majority. Some images inside the book are unavailable due to digital copyright restrictions.

America Sep 03 2022 Much of what you learn about American history can be better understood if you view events as part of a larger pattern. The themes in the American Pathways features throughout this book can help you identify the larger patterns and see the connections between events across time. - Publisher.

Railroaded: The Transcontinentals and the Making of Modern America Mar 05 2020 A Finalist for the Pulitzer Prize: "A powerful book, crowded with telling details and shrewd observations." —Michael Kazin, New York Times Book Review This original, deeply researched history shows the transcontinentals to be pivotal actors in the making of modern America. But the triumphal myths of the golden spike, robber barons larger than life, and an innovative capitalism all die here. Instead we have a new vision of the Gilded Age, often darkly funny, that shows history to be rooted in failure as well as success.

The Known Citizen Aug 10 2020 A Washington Post Book of the Year Winner of the Merle Curti Award Winner of the Jacques Barzun Prize Winner of the Ralph Waldo Emerson Award "A masterful study of privacy." —Sue Halpern, New York Review of Books "Masterful (and timely)...[A] marathon trek from Victorian propriety to social media exhibitionism...Utterly original." —Washington Post Every day, we make decisions about what to share and when, how much to expose and to whom. Securing the boundary between one's private affairs and public identity has become an urgent task of modern life. How did privacy come to loom so large in public consciousness? Sarah Igo tracks the quest for privacy from the invention of the telegraph onward, revealing enduring debates over how Americans would—and should—be known. *The Known Citizen* is a penetrating historical investigation with powerful lessons for our own times, when corporations, government agencies, and data miners are tracking our every move. "A mighty effort to tell the story of modern America as a story of anxieties about privacy...Shows us that although we may feel that the threat to privacy today is unprecedented, every generation has felt that way since the introduction of the postcard." —Louis Menand, New Yorker "Engaging and wide-ranging...Igo's analysis of state surveillance from the New Deal through Watergate is remarkably thorough and insightful." —The Nation

The Classical Historian Modern American History Reading, Discussing, and Writing May 19 2021 The Take a Stand! series teaches students how to be historians. They learn not what to think or memorize, but how to analyze the events of the past. This unique approach makes the student an active participation in the analysis of the past. This is the best of critical thinking, Socratic discussion, and analytical

writing in history. The Take a Stand! series is not a set of textbooks, but rather thinking, reading, speaking, and writing guides. Take a Stand! shows the student how to be a historian. You will need to use history texts and documents to complete the Take a Stand! method. History Content: United States Became a World Power, Immigration, The Role of Religion in American Life, U.S. Imperialism, Civil Liberties in the 1920s, the Great Depression, The New Deal, World War II in the Pacific, The Cold War in the United States, The Civil Rights Movement, Nixon and Watergate, Technology as a Cause for Change Thinking and Writing Skills: Fact or Opinion? Judgment, Supporting Evidence, Primary or Secondary Analysis, Using Quotes, Paraphrasing, Thesis Statement, Conclusion, Outline for a One-Paragraph Essay, Rough Draft for a One-Paragraph Essay, Taking Notes, Thesis Statement for a Five Paragraph Essay, Rough Draft for a Five Paragraph Essay, Revising, Documenting Sources in a Text, Works Cited, Typing Guidelines, The Cover Page and Checklist, Thesis Statement for a Multi-Page Essay, Counter argument, Analyzing Primary Sources, Cause and Effect, Compare and Contrast, One-Paragraph Grading Rubric, Five-Paragraph Grading Rubric, Multi-Page Grading Rubric.

Modern American Lives Oct 04 2022 The individuals presented in these narrative biographies significantly, and sometimes decisively, impacted contemporary American life in a wide range of areas, including national politics, foreign policy, social and political activism, popular and literary culture, sports, and business. The combined biographical/thematic approach is designed to serve two purposes: to present more substantive biographical information, and to offer a fuller examination of key events and issues. The book is an ideal supplement for undergraduate courses on The United States Since 1945, as well as for courses on Modern America and 20th Century America.

The American West Mar 17 2021 Chronicles the history of the American West during the twentieth century, tracing economical, political, social, and cultural developments in the region from 1900 to the turn of the twenty-first century, in an updated edition that includes new sections that explore the roles of ethnic groups in the new West, urban developments, western women, and events since the mid-1980s. Original.

Making History Feb 25 2022 It's time to take history personally. This unique text takes a personal approach to American history to get readers excited about their own roles in making history and empower them to make changes for the betterment of their country. Making History: A Personal Approach to Modern American History begins with the important point that while most standard textbooks refer to events that have shaped America, these events didn't happen to America - they happened to individual Americans. It is individuals who give their lives in armed conflicts and lose their homes during financial downturns. With this perspective in mind, students are prepared to read and think differently about post-Civil War history, including industrialization, the Spanish-American War and World Wars, the Depression, the Cold War, the Civil Rights Era, Vietnam, the rise of modern conservatism, and the country's current state of decline. This edition features a new chapter on reconstruction and an assessment of the Obama presidency and the 2016 presidential election. The first history textbook to include comic book pages, Making History features artwork by comic book artist Gary Dumm of American Splendor. With its non-traditional take on events and their impacts, Making History is a fresh alternative for survey courses in American history and historiography or classes in American civilization or popular culture.

USA Aug 29 2019 Traces the evolution of American architecture from the late nineteenth century to the present day, arguing that America's unique blend of cultures, sensibilities, and aspirations has shaped architectural development and examining how changes in style, from early skyscrapers, to Art Deco in the 1920s, to today's modernist trends, reflect the social and political issues of their time.

Original.

New Democracy Sep 10 2020 The activist state of the New Deal started forming decades before the FDR administration, demonstrating the deep roots of energetic government in America. In the period between the Civil War and the New Deal, American governance was transformed, with momentous implications for social and economic life. A series of legal reforms gradually brought an end to nineteenth-century traditions of local self-government and associative citizenship, replacing them with positive statecraft: governmental activism intended to change how Americans lived and worked through legislation, regulation, and public administration. The last time American public life had been so thoroughly altered was in the late eighteenth century, at the founding and in the years immediately following. William J. Novak shows how Americans translated new conceptions of citizenship, social welfare, and economic democracy into demands for law and policy that delivered public services and vindicated people's rights. Over the course of decades, Americans progressively discarded earlier understandings of the reach and responsibilities of government and embraced the idea that legislators and administrators in Washington could tackle economic regulation and social-welfare problems. As citizens witnessed the successes of an energetic, interventionist state, they demanded more of the same, calling on politicians and civil servants to address unfair competition and labor exploitation, form public utilities, and reform police power. Arguing against the myth that America was a weak state until the New Deal, New Democracy traces a steadily aggrandizing authority well before the Roosevelt years. The United States was flexing power domestically and intervening on behalf of redistributive goals for far longer than is commonly recognized, putting the lie to libertarian claims that the New Deal was an aberration in American history.

Impossible Subjects Oct 31 2019 This book traces the origins of the "illegal alien" in American law and society, explaining why and how illegal migration became the central problem in U.S. immigration policy--a process that profoundly shaped ideas and practices about citizenship, race, and state authority in the twentieth century. Mae Ngai offers a close reading of the legal regime of restriction that commenced in the 1920s--its statutory architecture, judicial genealogies, administrative enforcement, differential treatment of European and non-European migrants, and long-term effects. In well-drawn historical portraits, Ngai peoples her study with the Filipinos, Mexicans, Japanese, and Chinese who comprised, variously, illegal aliens, alien citizens, colonial subjects, and imported contract workers. She shows that immigration restriction, particularly national-origin and numerical quotas, re-mapped the nation both by creating new categories of racial difference and by emphasizing as never before the nation's contiguous land borders and their patrol. This yielded the "illegal alien," a new legal and political subject whose inclusion in the nation was a social reality but a legal impossibility--a subject without rights and excluded from citizenship. Questions of fundamental legal status created new challenges for liberal democratic society and have directly informed the politics of multiculturalism and national belonging in our time. Ngai's analysis is based on extensive archival research, including previously unstudied records of the U.S. Border Patrol and Immigration and Naturalization Service. Contributing to American history, legal history, and ethnic studies, Impossible Subjects is a major reconsideration of U.S. immigration in the twentieth century.

Why American History Is Not What They Say Jun 07 2020

Modern American Lives: Individuals and Issues in American History Since 1945 Feb 13 2021 The individuals presented in these narrative biographies significantly, and sometimes decisively, impacted contemporary American life in a wide range of areas, including national politics, foreign policy, social and political activism, popular and literary culture, sports, and business. The combined biographical/thematic approach is designed to serve two purposes: to present more substantive biographical

information, and to offer a fuller examination of key events and issues. The book is an ideal supplement for undergraduate courses on The United States Since 1945, as well as for courses on Modern America and 20th Century America.

The Making of Modern America Jan 15 2021 The second edition of Dr. Gary A. Donaldson's highly successful textbook *The Making of Modern America*, introduces students to the cultural, social and political paths the United States has traveled from the end of WWII to the present day. While deftly cataloguing the sweeping changes and major events in America from "Dewey Defeats Truman" through the election of our first black President, this newly updated edition never loses touch with that American history taking place at the level of the people. This edition details not just the United States' rich cultural history, but elegantly repositions it as integral to our understanding of any portion of this country's past. Donaldson provides a factual foundation for students and then pushes them to interpret those facts, framing the discussions essential to any complete study of American history. *The Making of Modern America, Second Edition* is updated to include: --An expanded chapter titled "America After the New Millenium" which more retrospectively and completely details the 21st century's first decade. --A new chapter titled "The Second Bush and Obama: From the War on Terrorism to the Audacity of Hope" updating readers on the calamitous end to President George W. Bush's second term, the Obama administration's first term challenges and the Great Recession. --Newly revised readings each profiling an historical event, speech or figure--Lee Harvey Oswald to Bill Gates to Condoleeza Rice-- at the conclusion of each chapter.

A History of Modern American Criminal Justice Oct 24 2021 "This text focuses on the modern aspects of the history of criminal justice, from 1900 to the present. A unique thematic approach, rather than a chronological approach, sets this book apart from comparable books on the subject, with chapters organized around themes such as policing, courts, due process, and prison and punishment. Making connections between history and contemporary criminal justice systems, structures, and processes, this text offers the latest in historical scholarship, made relevant to the needs of current and future practitioners in the field."--P. [4] of cover.

The Shaping of Modern America Sep 22 2021 In the years between the Civil War and the First World War, Americans lived in a nation quite different from that of their parents, the values of a burgeoning industrial and urban society transforming traditional notions of democracy. At the same time, other far-reaching developments--the eclipsing of countryside and farm by city and factory, substantial changes in communications and transportation, revolutionary innovations in agriculture, a large wave of immigration, the rise of labour unions, and the emergence of the United States as a world power--gave these years a distinctive character and established the foundations of modern America. Revised to reflect the latest scholarship on the Gilded Age and Progressive Era, this classic text remains a great choice as a core text for courses in the Gilded Age or as a highly useful supplement for the US history survey.

A Concise American History Jul 09 2020 Expertly steering readers through the often tumultuous and exhilarating history of the United States, from its early modern Native American roots to twenty-first-century neoliberalism and the shifting political climate of the past decade, this highly readable textbook provides a compelling overview of American development over the last five centuries. This book avoids either celebratory or condemnatory rhetoric to present a critical examination of domestic America and its interaction with the rest of the world. Balancing coverage of political, social, cultural, and economic history, each chapter also includes a wealth of features to facilitate learning: Timelines situating key events in their wider chronology Lists of topics covered within each chapter for easy reference Concept boxes discussing selected issues in more detail Historiography boxes exploring key debates Chapter summaries offering condensed outlines of the main themes of each chapter Further reading lists guiding readers to additional

resources Maps and images bringing to life important events and figures from America's history Clearly and engagingly written and positioning America's narrative within the wider global context, this textbook is particularly accessible for non-US students and is the perfect introduction for those new to US history. This textbook is also supported by a companion website offering interactive content including a timeline, multiple-choice quizzes, and links to selected web resources.

Main Currents in Modern American History Nov 05 2022 Analyzes American politics, foreign policy, and economic development during the nation's history as a major industrial capitalist state

Modern American Military History Dec 14 2020

The Modern American Military Jul 29 2019 The Modern American Military is composed of essays surveying the mission and character of the United States armed forces in the twenty-first century.

Intimate States Sep 30 2019 Fourteen essays examine the unexpected relationships between government power and intimate life in the last 150 years of United States history. The last few decades have seen a surge of historical scholarship that analyzes state power and expands our understanding of governmental authority and the ways we experience it. At the same time, studies of the history of intimate life—marriage, sexuality, child-rearing, and family—also have blossomed. Yet these two literatures have not been considered together in a sustained way. This book, edited and introduced by three preeminent American historians, aims to close this gap, offering powerful analyses of the relationship between state power and intimate experience in the United States from the Civil War to the present. The fourteen essays that make up Intimate States argue that "intimate governance"—the binding of private daily experience to the apparatus of the state—should be central to our understanding of modern American history. Our personal experiences have been controlled and arranged by the state in ways we often don't even see, the authors and editors argue; correspondingly, contemporary government has been profoundly shaped by its approaches and responses to the contours of intimate life, and its power has become so deeply embedded into daily social life that it is largely indistinguishable from society itself. Intimate States makes a persuasive case that the state is always with us, even in our most seemingly private moments.

[The Longman Handbook of Modern American History, 1763-1996](#) Mar 29 2022 This handbook attempts to provide a convenient reference for both teachers and students of modern American history from 1763 to the end of 1996. It is a much condensed work, bringing together chronological, statistical and tabular information. The text covers not only the political and diplomatic events but also the broader fields of social and economic history and also includes biographies of important individuals, a glossary of historical terms and a topical bibliography.

The Negro in Modern American History Textbooks Dec 02 2019

Out of Our Past May 31 2022 The original edition of this now classic work was hailed by Jacob Cohen in The Nation as "the finest one-volume interpretation of American history extant." For this Third Edition of Out of Our Past, Carl Degler has added a comprehensive new chapter on the historical development of American families, brought up to date the discussion of U.S. foreign policy, greatly expanded sections dealing with the place and history of women in our past, and made numerous changes throughout the text in light of scholarship published since the appearance of the 1970 Revised Edition.

The Industrial Revolution Jul 21 2021 During the Industrial Revolution, millions of Americans moved from farms to cities in search of work in new factories. This shift from an agricultural society to an industrial society was monumental, shaping the United States into the nation it is today. Readers explore the driving forces behind the Industrial Revolution and lasting effects of this dramatic change through carefully chosen primary sources, sidebars that feature first-person accounts of this time period, and riveting main text filled with essential historical facts.

With each turn of the page, readers will find themselves fully immersed in this seminal time period in American history.

Take a Stand! Modern World History _____ Jan 03 2020 The Take a Stand! series teaches students how to be historians. They learn not what to think or memorize, but how to analyze the events of the past. This unique approach makes the student an active participation in the analysis of the past. This is the best of critical thinking, Socratic discussion, and analytical writing in history. The Take a Stand! series is not a set of textbooks, but rather thinking, reading, speaking, and writing guides. Take a Stand! shows the student how to be a historian. You will need to use history texts and documents to complete the Take a Stand! method. Modern American Queer History _____ Jan 27 2022 In the twentieth century, countless Americans claimed gay, lesbian, bisexual, and transgender identities, forming a movement to secure social as well as political equality. This collection of essays considers the history as well as the historiography of the queer identities and struggles that developed in the United States in the midst of widespread upheaval and change. Whether the subject is an individual life story, a community study, or an aspect of public policy, these essays illuminate the ways in which individuals in various locales understood the nature of their desires and the possibilities of resisting dominant views of normality and deviance. Theoretically informed, but accessible, the essays shed light too on the difficulties of writing history when documentary evidence is sparse or coded. Taken together these essays suggest that while some individuals and social networks might never emerge from the shadows, the persistent exploration of the past for their traces is an integral part of the on-going struggle for queer rights.

A History of the American People _____ Jun 19 2021 "The creation of the United States of America is the greatest of all human adventures," begins Paul Johnson. "No other national story holds such tremendous lessons, for the American people themselves and for the rest of mankind." In his prize-winning classic, Johnson presents an in-depth portrait of American history from the first colonial settlements to the Clinton administration. This is the story of the men and women who shaped and led the nation and the ordinary people who collectively created its unique character. Littered with letters, diaries, and recorded conversations, it details the origins of their struggles for independence and nationhood, their heroic efforts and sacrifices to deal with the 'organic sin' of slavery and the preservation of the Union to its explosive economic growth and emergence as a world power. Johnson discusses contemporary topics such as the politics of racism, education, the power of the press, political correctness, the growth of litigation, and the influence of women throughout history. He sees Americans as a problem-solving people and the story of their country as "essentially one of difficulties being overcome by intelligence and skill, by faith and strength of purpose, by courage and persistence... Looking back on its past, and forward to its future, the auguries are that it will not disappoint humanity." Sometimes controversial and always provocative, A HISTORY OF THE AMERICAN PEOPLE is one author's challenging and unique interpretation of American history.

Johnson's views of individuals, events, themes, and issues are original, critical, and in the end admiring, for he is, above all, a strong believer in the history and the destiny of the American people.

The Cambridge Companion to Modern American Culture Nov 24 2021 Publisher description

A History of Book Publishing in Contemporary Latin America Oct 12 2020 This book presents a cultural history of Latin America as seen through a symbolic good and a practice – the book, and the act of publication – two elements that have had an irrefutable power in shaping the modern world. The volume combines multiple theoretical approaches and empirical landscapes with the aim to comprehend how Latin American publishers became the protagonists of a symbolic unification of their continent from the 1930s through the 1970s. The Latin American focus responds to a central point in its history: the effective interdependence of the national cultures of the continent. Americanism, until the 1950s, or Latin Americanism, from the onset of the Cold War, were moral frameworks that guided publishers' thinking and actions and had concrete effects on the process of regional integration. The illustration of how Latin American publishing markets were articulated opens up broader and comparative questions regarding the ways in which the ideas embodied in books also sought to unify other cultural areas. The intersection of cultural, political and economic themes, as well as the style of writing, makes this book an interest to a wide reading public with historical and sociological sensitivity and global cultural curiosity.

The Modern American Metropolis Aug 22 2021 The Modern American Metropolis: A Documentary Reader introduces the history of American cities and suburbs through a collection of original source materials that historians have long used to make sense of the urban experience. Carefully integrates and juxtaposes the primary sources that are at the heart of the collection Revisits and compares issues and themes over time Reveals how the history of cities and suburbs is not limited to buildings, innovation, and politics, and not confined to municipal boundaries Explores a wide variety of topics, including infrastructure development, electoral politics, consumer culture, battles over rights, environmental change, and the meaning of citizenship

The Rise of Modern America Apr 17 2021 U.S. History from 1900 to 1945. This is the first comprehensive historical narrative to treat the period from the 1890s to 1945 as a coherent unit of study in its own right. A synthesis of the most recent scholarship on the period, it combines the best of a traditional public policy approach with the richness and depth of a new social history perspective.

Civil Rights and the Making of the Modern American State Dec 26 2021 This book extends what we know about the development of civil rights and the role of the NAACP in American politics. Through a sweeping archival analysis of the NAACP's battle against lynching and mob violence from 1909 to 1923, this book examines how the NAACP raised public awareness, won over American presidents, secured the support of Congress, and won a landmark criminal procedure case in front of the Supreme Court.

America Apr 05 2020 This text provides in-depth balanced content covering the beginnings of U.S. history through the present.

Religion in the Modern American West May 07 2020 When Americans migrated west, they carried with them not only their hopes for better lives but their religious traditions as well. Yet the importance of religion in the forging of a western identity has seldom been examined. In this first historical overview of religion in the modern American West, Ferenc Szasz shows the important role that organized religion played in the shaping of the region from the late-nineteenth to late-twentieth century. He traces the major faiths over that time span, analyzes the distinctive response of western religious institutions to national events, and shows how western cities became homes to a variety of organized faiths that cast only faint shadows back east. While many historians have minimized the importance of

religion for the region, Szasz maintains that it lies at the very heart of the western experience. From the 1890s to the 1920s, churches and synagogues created institutions such as schools and hospitals that shaped their local communities; during the Great Depression, the Latter-day Saints introduced their innovative social welfare system; and in later years, Pentecostal groups carried their traditions to the Pacific coast and Southern Baptists (among others) set out in earnest to evangelize the Far West. Beginning in the 1960s, the arrival of Asian faiths, the revitalization of evangelical Protestantism, the ferment of post-Vatican II Catholicism, the rediscovery of Native American spirituality, and the emergence of New Age sects combined to make western cities such as Los Angeles and San Francisco among the most religiously pluralistic in the world. Examining the careers of key figures in western religion, from Rabbi William Friedman to Reverend Robert H. Schuller, Szasz balances specific and general trends to weave the story of religion into a wider social and cultural context. Religion in the Modern American West calls attention to an often overlooked facet of regional history and broadens our understanding of the American experience.

United States History Nov 12 2020 Developed to meet the needs of modern United States history courses. This text includes a review unit bridging early American history content before studying modern times.

The Gilded Age Feb 02 2020 Broad in scope, The Gilded Age brings together sixteen original essays that offer lively syntheses of modern scholarship while making their own interpretive arguments. These engaging pieces allow students to consider the various societal, cultural and political factors that make studying the Gilded Age crucial to our understanding of America today.
