Encyclopedia of Rainbows Jun 18 2021 This playful collection of rainbows is a bright and beautiful appreciation of all the color that surrounds us. Artist Julie Seabrook Ream invites us to see the extraordinary beauty of ordinary objects: she gathers colorful iterations of a single type of thing, from feathers to fishing gear, matchbooks to macarons, and neatly arranges them in rainbow order. A fascinating index details all the objects in each rainbow, bringing the magnetic appeal of meticulous organization to this burst of color in book form. A striking package—with foil stamping on the cover and a rainbow-colored exposed spine—makes this celebratory book a treasure for those who love art, design, and a fresh perspective.

Redline Archeology Dec 13 2020 Redline Archeology answers the on-going demand of Hot Wheels collectors' desire to learn the secrets to discovering rare, original collections. Sparked by a child's excitement over a new toy in 1968, the book chronicles 25 years of amazing scores. The detailed history recounts how Bob Young has become one of the most successful and unique collectors in the hobby today. The secrets within the pages reveal how he discovered original collections, to how his techniques have evolved with the ever-changing technology. Filled with great photos and stories about some of the most interesting and incredible finds, Redline Archeology is a must read for any serious collector of not only Hot Wheels, but any collectible.

Camaro Special Editions: 1967-Present: Includes Pace Cars, Dealer Specials, Factory Models, Copos, and More Nov 11 2020 Discover a fascinating array of special edition high-performance Camaros written by Chevrolet historian and COPO authority, Matt Avery. It's no secret that Chevrolet designed and built the Camaro in direct response to the runaway success of the Ford Mustang. The Mustang already sold more than a million cars before the Camaro made it to market in the fall of 1966. The wild popularity of this new "pony car" segment surprised everyone, and Chevy knew it had serious ground to cover to catch up. A credit to General Motors, the Camaro charged hard out of the gate, becoming an instant hit. In each of its first three years, it sold almost a quarter million units, causing a decline in sales for the cross-town Detroit rival. While Chevy crafted Camaro variants to please everyone, enterprising hot rodders and performance tuners always took it a step further. Enter the high-octane world of Camaro special editions. Partly in an effort to work around GM's more than 400-ci displacement ban and following the high-revving demands of enthusiasts, numerous Camaro special editions have been produced over the years, becoming some of the most collectible cars of all time. Covered here are not only the factory models such as pace cars, ZL1s, anniversary editions, IROC-Zs, Hot Wheels editions, Z/28s and RS/SS cars but Camaro Special Editions also covers the legendary COPO cars and dealer go-fast specials from builders including Yenko, Nickey, Berger, Baldwin-Motion, Gories and Dick Harrell. More modern editions will be covered as well with Callaway, SLP, GMMG, Lingenfelter, Hennessey, and more. Detailed information on all of the models from 1967 to today, including build numbers, options, aspects that make them unique, and their collectability, will all be dissected in this fabulous new volume. This book is a must-have item for all Chevy and Camaro lovers.

1969-1970 Ford Mustang Boss 429 Apr 16 2021 Not to be outdone by Chrysler, Ford had to build and field its own race-duty big-block to compete with the 426 Hemi in drag and stock car racing. In competition trim, the Boss 429 powered Ford and Mercury stock cars to victory in NASCAR and the Mustang to many wins in drag racing. With this exclusive racing pedigree, the Boss 429 is among the most valuable and rare Mustangs ever built. The project was the brainchild of Bunkie Knudsen, noted stylist Larry Shinoda, and other talented Ford personnel. The semi-hemi Boss 429 was so large, it couldn't fit in the small Mustang, so Kar-Kraft, a specialty car builder, had to shoehorn the engine into the compact Mustang fastback. Author Dan Burrill gives you the straight story on the Boss 429, its special equipment, 429 engine, 4-speed Toploader transmission, interior appointments, paint codes, and options. Also featured is the exciting story of developing this monumental engine, engineering the components and parts to fit the engine and chassis, and assembling the cars. Each volume in the In Detail Series provides an introduction and historical overview, an explanation of the design and concepts involved in creating the car, a look at marketing and promotion, an in-depth study of all hardware and available options, and an examination of where the car is on the market today. Also included are paint and option codes, VIN and build tag decoders, as well as production numbers. p.p1 [margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial]

Hot Wheels Classic Redline Era May 30 2022 Combining candy-colored paint jobs with muscle car attitudes and southern California cool, Hot Wheels cars changed the toy world forever in 1968. For the next 10 years as millions of kids discovered the joy of these miniature marvels, one small characteristic came to define this radical die-cast era: the thin red line on the cars tires. Hot Wheels Classics: The Redline Era proudly showcases more than 500 spectacular color photos (so some of the finest cars of this groundbreaking time.) Sprinkled throughout the visual and historical feast, you'll enjoy the commentary from legendary car designer Larry Wood and other Mattel designers. More than 40 years of introduction, Hot Wheels cars have experienced a multitude of changes, incredible success, trials and tribulations, and ultimately crafted one of the greatest American toy stories of all time. Yet is one single feature from decades past that skill defines for many their greatest: the Redline.
