MEANINGFUL AND POSITIVE CHANGE WITH THE ULTIMATE GUIDE TO IMPLEMENTING DIVERSITY AND INCLUSION Of the very few Fortune 500 companies that share diversity data, 72% of their senior executives are white men.

And it's been proven that companies with more diverse management teams have nearly 20% higher revenues. Surely YOU don't want to be left behind? Moral imperatives aside, the business case for diversity and inclusion is clear - they are clear drivers of innovation, profit and employer brand. But how can male white leadership implement this change? There's no denying it's difficult - perhaps you feel left out of the conversation, afraid to make mistakes, and confused about the evolving language of diversity and inclusion. In this practical guide, leading diversity specialists Felicity Hassan and Suki Sandhu OBE teach you how to create an inclusive environment for your employees and have educated conversations about diversity, illuminating what can sometimes be tricky territory with humour and heart.

Things Fall Together Mar 13 2021 From the visionary founder of the Self-Assembly Lab at MIT, a manifesto for the dawning age of active materials Things in life tend to fall apart. Cars break down. Buildings fall into disrepair. Personal items deteriorate. Yet today's researchers are exploiting newly understood properties of matter to program materials that physically sense, adapt, and fall together instead of apart. These materials open new directions for industrial innovation and challenge us to rethink the way we build and collaborate with our environment. Things Fall Together is a provocative guide to this emerging, often mind-bending reality, presenting a bold vision for harnessing the intelligence embedded in the material world. Drawing on his pioneering work on self-assembly and programmable material technologies, Skylar Tibbits lays out the core, frequently counterintuitive ideas and strategies that animate this new approach to design and innovation. From furniture that builds itself to shoes printed flat that jump into shape to islands that grow themselves, he describes how matter can compute and exhibit behaviors that we typically associate with biological organisms, and challenges our fundamental assumptions about what physical materials can do and how we can interact with them. Intelligent products today often rely on electronics, batteries, and complicated mechanisms. Tibbits offers a different approach, showing how we can design simple and elegant material intelligence that may one day animate and improve itself—and along the way help us build a more sustainable future. Compelling and beautifully designed, Things Fall Together provides an insider's perspective on the materials revolution that lies ahead, revealing the spectacular possibilities for designing active materials that can self-assemble, collaborate, and one day even evolve and design on their own.

**Together, We Can Make The World Better Jun 27 2022** How

can we make the world better? Together, through increasing awareness and initiating action, we can make the world better. This socially conscious children's book includes an integrated discussion guide with vocabulary and facts. Perfect for school, community, or home, adults and teens can encourage children to pay attention to the world around them, ignite compassion, and inspire them to take action that initiates positive change.

Together, We Can Make The World Better! Recommended for ages 3 to 7 Learn more at [togetherwecanseries.com](http://togetherwecanseries.com). Let's get social: #togetherwecanbook. A note to the reader (excerpted from the book): The goal of this book is to increase awareness and initiate action. Increasing social consciousness can decrease implicit bias (unconsciously-held set of associations about a social group). When more people hold fewer biases, and when more people serve those who have historically been marginalized, the world will be a better place! To make a change, we must increase awareness and take action. One action is to talk! Each page has discussion questions to help you engage children in reflection and dialogue. Some pages share facts and definitions. In the first part of the book, there are multiple dualities. The objective of the dualities is not to teach either/or thinking, but rather to introduce children to the concepts of: privilege (a special advantage or benefit not enjoyed by all), social consciousness (awareness of important social issues), and compassion (desire to help someone who's in distress). The goal

is to encourage children to pay attention to the world around them and begin to recognize unearned disparities. While reading and discussing, it is essential to not make negative assumptions, associations, or encourage blaming. For example, we can teach children: If a child experiences food insecurity (the state of being without reliable access to a sufficient quantity of affordable, nutritious food), it isn't their fault. If a child always feels safe, they didn't do anything to deserve that more than someone else. A person experiencing a disability can still be strong, healthy, and capable. Someone can be sad and happy at the same time. A person's circumstances don't define them, and shouldn't limit them. When discussing, it is useful to use people or person-first language (PFL). PFL puts a person before a diagnosis or circumstance, describing what a person has rather than asserting what a person is. Examples include a person experiencing homelessness or a student experiencing depression. Remember, together, we can make the world better! About the Author Dr. Meagan Pollock envisions a world where personal and social circumstances are not obstacles to achieving potential, and where kindness, inclusivity, and conservation prevail. An international speaker, teacher, engineer, and equity leader, her mission is to provide services, tools, and resources that inspire awareness and initiate action.

The Entrepreneur's Guide to Keeping Your Sh\*t Together Jun 15 2021 Learn how to stay sane and ensure both you and your business thrive for years. You run a business. And running a business is hard. It can ruin your health. It can ruin your relationships. It can ruin your life. But only if you don't equip yourself for the journey. The responsibility, stress and loneliness of being an entrepreneur are a far cry from your friends who

work salaried jobs. The path of least resistance is to let the stress and isolation of starting, running and growing a business infiltrate most aspects of your life. Over and over we've watched our fellow entrepreneurs succumb to the mental toll and chaos of running a business. We've also experienced it firsthand as we've launched and grown our own businesses. Odds are good that you've been overwhelmed at some point. Maybe you've read self help books only to find that books about stress management typically don't take into account the unique experience of entrepreneurs. Or they're 'lifhacks' written by a blogger with no formal training, offering advice based on anecdotes. Why do I need this book? You want to invest in yourself (and consequently, your business). You want to learn proven strategies, tactics and techniques to overcome the challenges that cause you heartburn and headaches. You want to get off the treadmill of stress, anxiety and isolation that entrepreneurship brings. You want to prevent burnout, depression, isolation, and the emergence of damaging coping strategies and self-sabotaging choices. Every aspect of this book is a pairing of psychological expertise with decades of entrepreneurial experience. Author, Seth Godin calls it, "A personal, generous and incredibly useful guide to staying sane and changing the world at the same time. Read it before you think you need it." Here are just a few things you will take away: New ways to deal with the responsibility and fear that go along with being an entrepreneur Why knowing yourself and where you came from is crucial to your success How to succeed as an entrepreneur no matter your personality type How to keep stress from ruining your relationships Dealing with depression, anxiety, burnout, ADHD and other common psychological burdens How to get more things done - and faster - by dealing with procrastination, distraction and muddled priorities How to deal with

overwhelming (seemingly) massive failures How to find personal calm in the midst of chaos And much more... Love the book? Read a review! And join the conversation by joining our Facebook Group: [www.facebook.com/groups/zenfounder/](http://www.facebook.com/groups/zenfounder/)

But some opportunities Jade could do without, like the mentor programme for 'at-risk' girls. Just because her mentor is black doesn't mean she understands where Jade is coming from. Why is Jade always seen as someone to fix? But with a college scholarship promised at the end of it, how can Jade say no? Jade feels like her life is made up of
