The Judge Lied Jul 21 2021 The Judge Lied: True Story “Someone must be trusted, let it be the judges.” –Lord Denning “Transparent, equality, and EXACT laws.” – President Thomas Jefferson In recent years, there has been a rising crescendo of complaint over the legitimacy – sometimes even the honesty – of particular judicial conduct. From political conservatives come charges that judges are overriding the will of the people as expressed in statute and referenda relating to abortions, gay rights, affirmative action, religion, and other subjects. From political liberals come charges of bias against women, sexual misconduct, harshness towards the interest of minorities, and forced imposition of deeply conservative political views. From both sides come charges of overriding the people’s views and protecting the professional politicians by striking down term limits. From all venues, even high-priced corporate lawyers, comes tyrannical and arbitrary conduct by trial judges. Misuse of position and even bribery are known to have sometimes existed. Beyond these matters, one dean of a law school’s thirty-four years as a law professor and litigator persuaded him that there is yet another problem, one that is widespread. It is that judges too often are unwilling to listen to facts or reasons. They start with predilections heavily favouring one side; predilections, which they, of course, deny, and then prove impervious to facts and resulting reasons contrary to their bias. When judges act on the basis of their prior predilection, ignore facts, and even make up supposed counter facts, they destroy a central tenet of the judicial system: the decision of cases based upon facts rather than prejudice. They also destroy faith in the judicial system.

Covenant of Love Jan 15 2021 The purpose of this book, in the Cardinal's words, "is not simply to emphasize the importance of appropriate preparation for marriage, or to discuss the nature of such preparation-although I do attempt to do this. But I want to go deeper, most particularly by way of exploring the likeness of marriage and priesthood, together with the radical reason for marriage itself." And so this is not a marriage

manual, nor a book of strict guidelines and instructions. Thoroughly pastoral, and practical, in tone, sprinkled with real-life anecdotes, this book will encourage both the married and the unmarried to look at the spiritual, the sacramental, and indeed, the supernatural, dimensions of marriage as God seems to have intended it to be. In more than two dozen chapter-reflections, O'Connor covers such themes as: self-sacrifice, indissolubility, prayer life, marital relations, channels of grace, the frustration-aggression phenomenon, money, divorce and remarriage, being loved for oneself, fidelity, and parenting.
